A: Dried beans in a jar like these don't need a shower, although some cooks like to soak them. Canned beans, however, have a lot of added salt, so it's best to give them a quick rinse before cooking them! Fresh, dried, or canned, beans are an incredible and inexpensive source of protein, plus they have very little fat, are loaded with vitamins and minerals, and are one of the best sources of fiber you can find. Eat more beans!
