

Chili Ambulance Explorer Post

★ High school students ★

C.V.A.S has a wonderful learning opportunity for anyone between the ages of 14-18. You get to observe 911 calls, build leadership skills, and participate in hands-on medical training! When you are over 16 and CPR certified, you can go on ambulance ride-alongs. No experience necessary to become an Explorer and it looks good on college applications.

(Mercy Flight tour 2016)

Join us on September 28th from 7pm-9pm at the ambulance base! There will be food and demonstrations of what we do.
