## MATH

Our final Module: Time, Shapes and Fractions as Parts of Shapes. The final module of the year, students extend their understanding of part-whole relationships through the lense of geometry. As students compose an decompose shapes, they begin to develop an understanding of unit fractions as equal parts of a whole.

## Word Study

- Sounds of au and aw
- Consonant -le words

## Study Skills

### Remember:

Always reward your child's efforts to build study skills. Praise goes a long way!!!

## Social Studies

We begin our Maps & Globes. Unit.

Students are using an interactive notebook to guide them through the study of maps and geography skills.

The students are enjoying learning about the world they live in.

## ELA

Students will spend time reading a variety of books by Tomie de Paola. We will focus on similarities in characters, writing styles and connections across his books. We will learn about author's craft and style. de Paola is a fabulous author that I'm sure the students will love learning about.
