How can I receive messages in another language?
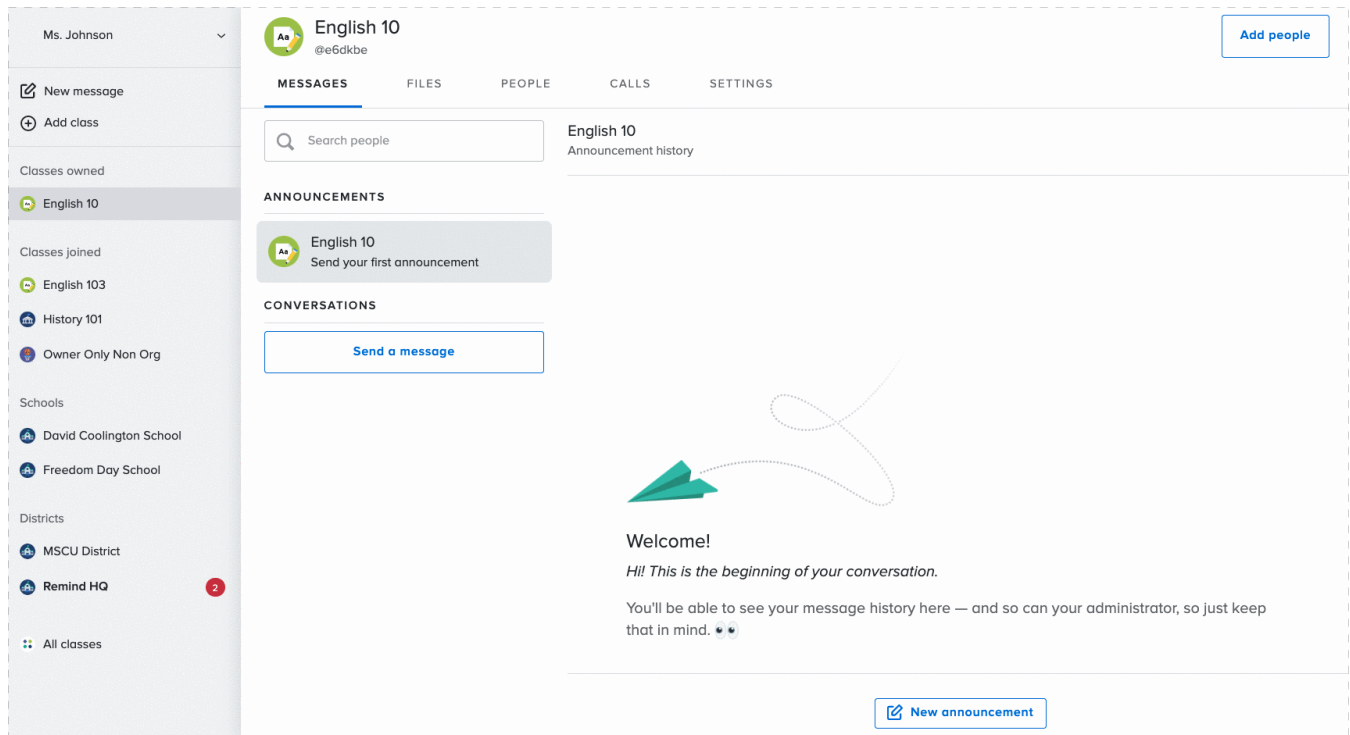

For all Remind users.

To receive messages in a specific language, you must add a preferred language to your Remind account. When a sender uses our translation feature, we'll automatically translate messages you receive into your preferred language.

Note 1: All of Google Translate's 90+ languages listed here are available for translation in Remind.
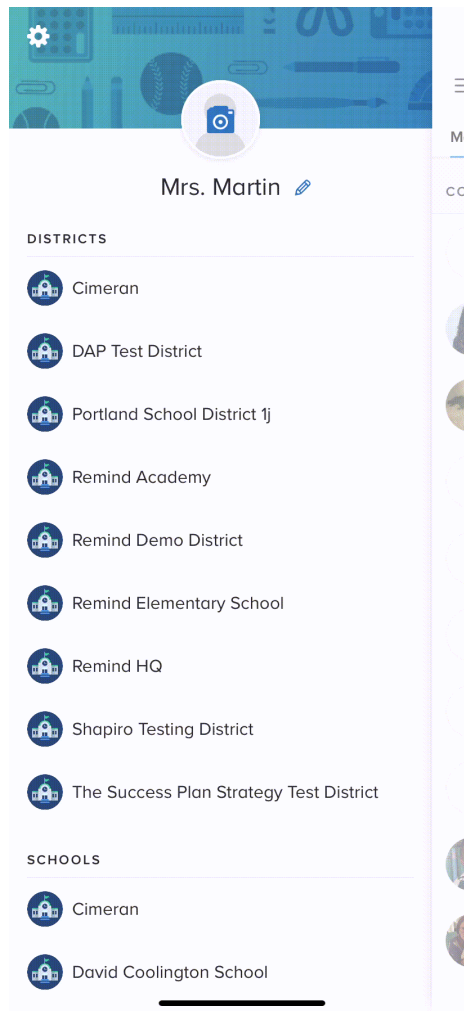

To set your preferred language:

Web

1. Log in to your Remind account.

2. Click on your name located on the upper left side of the dashboard.

3. Select **Account settings**.

4. On the **Profile** page, scroll down to the **Preferred language** section.

5. Click on the dropdown menu and select your preferred language.

6. Select **Save.**

Your account will automatically update with your preferred language.

iOS app

Open the Remind app.

Tap the gear on the upper right.

Select **Your account**.

Tap **Change** under the **Preferred language** section.

Search for your language, or scroll through the list to find it.

Tap the language you've chosen.

Your account will automatically update with your preferred language.

Android app

Open the Remind app.

2   Tap the three vertical dots on the upper right.

Select   **Account settings.**

Tap **Your account**.

Tap **Set preferred language.**

Search for your language, or scroll through the list to find it.

Tap the language you've chosen.

Your account will automatically update with your preferred language.
