

The Rush-Henrietta Central School District's policy on delivering medication to students by school staff must comply with the New York State Law. Medication will be administered within the nurse's office when the following criteria have been met:

- 1. The school nurse/teacher is provided with a written prescription from the student's physician for any prescription or non-prescription medication.**

- 2. The student's parent has provided the school with written authorization to administer the medications.**

- 3. The student's parents provide the medication in its original, labeled container to the school nurse/teacher in person. Students may not transport medication to or from school.**

HELPFUL HINT: If the medication must be administered in school have the pharmacist divide the prescription into two labeled containers.
